

Sight

The Basics-How do our eyes interpret visual information?

What is the most crucial use of sight?

What are other uses of sight?

Why create beauty to be beheld at all? Is it foundational in God or is it a gift?

Let's look at scripture:

Mark 10:46-52

- If you had to guess, did Blind Bartimaeus lose his sight or was he born blind?
- Does Bartimaeus need sight to see what is important?
- Vs 47-48 what drives him to disregard the crowd? Do groups of people see better or the individual?
- How does the story end?

John 9

- What is the difference of being blind or blind from birth? (Anophthalmia)
- Vs 6 has a striking resemblance to Genesis 2:7. What could this mean?
- "to send" What do you think this means in it's context?
- The man's blindness becomes judgement, a needle's eye, a stumbling block, how?
- Keeping the third, breaking the seventh?
- Duet. 18:15?
- Vs 31: Were there other rabbis who healed?
- When is the man's blindness healed?

Senses As Metaphor:

- So, is sight always seeing physical things?
- Our sense of sight in biblical terms is more often connected with seeing God's truth so is that a combination of seeing with our eyes and our faith or just our faith?
- Can your sight lie to you? (Deep fake)
- What can we trust alone in times like these?
