Discipleship Moment:

Becoming calloused or hardened to sin is easier than we think. We do something small, watch something inappropriate on our minds and hearts, we don't check all the items at the self-check, we look at the wrong pictures, we covet someone else's life or home or job. None of these looks dangerous to people on the outside or in the world but when we become calloused to one sin we become calloused to others. We had a District President of the LCMS fall into pedophilic behavior. Do we really think it began there?

Take a moment and talk about the fact that the little stuff, the little things are what make us more calloused to the bigger stuff and what is the danger in all of that. Perhaps if you are willing, confess the little stuff and receive forgiveness.
